The following is an examiner's statement of reasons for allowance: Claims 23 and 26 are allowable for the reasons set for the Amendment filed March 13, 2006. New claim 41 requires a first friction surface, a first locking element, and a plurality of inner discs and the first shift control half being biased by a spring towards the friction surface of a synchronizing ring. This combination is also not shown or taught by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
